

New Trimm-King, for everybody who likes the hair only on his animal!

This new **Trimm-comb** was tested thoroughly and all test-copies were withheld by our testers, because they did not want to renounce any more this tool. In contrast to comparable devices available in trade our **Trimm-King** does not cut definitively.

Friendly to animal - fur care without pains for your animal!

Trimm-King is suited very well for trimming and dewooling.
The most different kinds of fur are no problem for **Trimm-King**.

- Speedy and careful application with dog, cat, horse.
- Loose hair are certainly removed, besides, it plays no role whether deck hair or unterwool.
- By regular application of the **Trimm-King** the loose hair has no more the possibility to felt, through this it is bent forward many skin illnesses.
- The absolutely painless application also persuades your darling and the acceptance of the fur care is clearly increased.
- Even very sensitive cats can be worked on with **Trimm-King** easily. Many cats suffer from inflammations in the stomach-intestinal area which have to heal no chance, because hair is taken up by the constant cleaning about the tongue of the cat over and over again. This is prevented by the use **Trimm-King** and with it such inflammations can heal clearly quick.

Friendly to user

An especially pleasant work with our **Trimm-King** is guaranteed by his **ergonomically formed out handle**.
The arrangement of the head in straight lengthening of the human arm makes the work easier tremendously. **The joints of the shoulder, the elbow and the wrist are spared** and therefore a long-term application (with professionals commonly) is allowed, without concomitants known up to now. You will be surprised, in what a short time you will find no more animal hair in the flat or in the car, because you are able to remove the loose hair directly by the producer (your animal) by using the **Trimm-King** in time.

Expediently

Trimm-King gets you by his application a determining temporal advantage compared with customary approaches. You must no longer more remove tiresome hair from your flat or car. At the same time your animal is spared, because the otherwise time-consuming procedure is shortened seriously. **Saving of time up to 40%** compared with customary approach possibly.
